Key Skills

HR-Tech & Process Expertise 9

Solid hands-on experience from multiple HR projects: UKG HRSD configuration, HR Employee Live Cycle mapping, ADONIS BPMN 2.0 modelling, HR data migration, interface design, health-check assessments and best-practice catalogue creation.

Project Governance & Delivery 9

PRINCE2 Practitioner · Scrum Master – confident applying hybrid or pure-agile approaches, tailoring roles, ceremonies and artefacts to project size and culture.

Language Proficiency 8

English C1 (18-month work placement in Australia, degree studies) · Spanish A2 (two semester courses) · German native.

Collaboration & Productivity 9

Daily power-user of Microsoft 365 – Teams, Planner, To Do, SharePoint, Outlook, Excel, Word and PowerPoint – leveraging advanced features (flows, conditional formatting, co-authoring) to streamline delivery.

Personal Data

Manuel Alexander Weiss

Born on 25 May 1988 in Memmingen

Work-Experience

[HR Campus AG, Zurich, Switzerland](#)

12.2021 - 06.2025

HR Consultant

- Delivered end-to-end UKG HRSD implementations for SME and enterprise customers using agile and waterfall methodologies, ensuring alignment with scope, timeline, and budget.
- Designed, automated, and integrated HR processes and data transfers across SAP SuccessFactors/HCM, DocuSign, and SAP HCM through RPA techniques, API endpoints, and SAML SSO integration.
- Facilitated role-design workshops and conducted on-the-job training sessions while coaching administrators in UKG HRSD and ADONIS platforms.
- Conducted HR health checks and developed HR digitalization roadmaps along with best-practice process catalogs by applying Prince2/Scrum governance to monitor project elements like budget, schedule, quality, resources, risks, and implementing change measures when required.

Searching for Job

09.2019 - 11.2019

[BOC Information Technologies Consulting GmbH, Berlin, Germany](#)

12.2019 - 12.2021

Process Consultant

- Conducted process discovery sessions and documented workflows to establish a structured Business Process Management (BPM) practice for client organizations.
- Facilitated workshops utilizing gap analysis, SIPOC, and root-cause analysis techniques to identify inefficiencies and drive actionable improvement initiatives.
- Implemented BPMN 2.0 standards to optimize internal processes and strengthen governance frameworks across various departments.
- Deployed and configured the ADONIS process-management suite, enabling streamlined process modeling, versioning, and KPI tracking for clients.

[eeMobility \(Startup\), Munich, Germany](#)

03.2019 - 09.2019

IT Project Manager, Sales & Contract Management

- Directed the end-to-end contract management lifecycle, encompassing process mapping, second-level support, digital archiving, and compliance assurance.
- Implemented digitalization projects to optimize and streamline contract workflows, enhancing operational efficiency and productivity.
- Coordinated trade-fair participation and client meetings to boost market visibility and strengthen customer relationships.
- Completed a six-month professional sales training program with an external coach, focusing on improving negotiation techniques and strategies for account growth.

[Work and travel Australia](#)

09.2017 - 02.2019

Production Technician

- Assembled steel and fiber ropes to precise technical tolerances and customer specifications, ensuring high-quality end products.
- Conducted comprehensive visual and technical inspections on ropes and lifting gear, maintaining adherence to quality assurance and safety standards.
- Implemented Lean-management practices (5S), improving shop-floor organization and reducing tool and material search times for increased efficiency.

100+ workshops, trainings and executive demos delivered – forged during consulting work, studies and the elective “*Presenting, Moderating & Negotiating*” as well as public talks for the Munich Chamber of Crafts.
